---

## Education

Bachelor of Science in Computer Engineering, University of Notre Dame

August 2018 - May 2022

- 3.6/4.0 GPA
- Trustey Family Merit Scholar

## Key Skills

- Python (5 years)
- C/C++ (4 years)
- JavaScript (5 years)
- MATLAB (1 year)
- Yocto Project/bitbake (1 year)
- Shell Scripting (2 years)
- HTML/CSS (5 years)
- LaTeX (3 years)

## Work Experience

Software Engineer, Virtualica Inc.

2022 - Present

- Assisted in developing REST API for multi-cloud configuration program, StorageFabric

Research Assistant, Center for Research Computing

2019 - 2021

- Collaborated with students from other universities to write a System-On-Chip benchmarking suite in shell script
- Built custom Linux build environment with Yocto targeting Enclustra System-On-Chip board

Computing Assistant, Notre Dame Department of Engineering Science Computing

2019 - 2021

- Wrote PowerShell and shell scripts to automate installation and maintenance of Windows computer clusters
- Performed routine maintenance and updates on school Windows and Linux computer clusters

Teaching Assistant, Notre Dame Department of Computer Science and Engineering

2021 - 2022

- Courses: Systems Programming, Operating Systems
- Tutored fellow students core concepts of Unix systems programming and operating systems principles
- Assisted with debugging and grading students' Python, shell script, and C programs

## Activities

Notre Dame Data Club Hackathon

2020

- Worked in a small team to perform data analysis with Python and R
- Developed an interactive website with to present findings with HTML/CSS/Javascript

Irish Hacks Hackathon

2019

- Worked in a small team to develop a Chrome extension to scan for and retrieve news articles, using JavaScript and the IBM Watson API

## Personal/Hobbies

- Training in classical piano
- Game development with Godot, Unity, and PICO-8
- Running and playing tabletop role-playing games
